VEHICLE & CAR WRAPPING AUCKLAND DRAMATIC COST SAVINGS A high quality paint job can cost several thousand dollars, and for some vehicles the final cost can easily exceed \$10,000. However, a high performance vehicle wrap can cost anywhere from \$500-\$5000. For multiple vehicles/fleets, the cost savings are massive and impossible to ignore. **PROTECT VEHICLES** Vehicle wraps don't just add beauty, style and sophistication – they also protect a car's original or OEM paint, which eliminates maintenance costs (e.g. touch-ups, scratches, etc.), and boosts resale value. <http://decalteam.nz/car-signwriting/>
