China LiCB AC DC EV Charger Co., Ltd. (<https://www.li-charger.com/>) has rapidly established itself as a leading EV charger manufacturer in China, committed to driving the future of sustainable transportation. We specialize in the independent research, design, production, and sale of a wide array of EV charging solutions. Our offerings include compact AC chargers and batteries for residential use, as well as high-speed DC charging stations for commercial applications. Additionally, we offer innovative large-screen chargers featuring integrated media displays and durable, high-performance charging cables. With a strong emphasis on research and development, a skilled engineering team, and an extensive patent portfolio, we adhere to the highest industry standards. Our commitment to innovation ensures that we deliver reliable, cutting-edge solutions that meet the evolving demands of the EV market.
