China Topper Valve Manufacturer Co., Ltd., established in 1986 in Wenzhou, China, is your trusted partner for fluid control valves. Our production facility spans 62,000 square meters and includes two advanced subsidiary factories. With a team of over 500 skilled professionals and more than 200 state-of-the-art pieces of equipment, we are dedicated to delivering top-notch valve manufacturing solutions. Our valve products adhere to international standards such as ANSI, API, BS, DIN, GOST, and GB, and are utilized across various critical industries including oil and gas, petrochemical, refining, chemical, shipbuilding, and power production and transmission pipelines. Our valves play a crucial role in industrial fluid control and are integral to the success of your engineering projects. We are committed to maintaining high standards of product quality and service, supported by a range of international certifications including ISO 9001, API Certificate, CE Mark, TS Level A1, ISO 14001 Environmental Management System, and OHSAS 45001 Occupational Health and Safety Management System. To ensure continuous improvement in product quality, we operate a specialized testing company equipped with advanced technology for stringent quality control. This ensures that each valve operates reliably under diverse working conditions and meets your high standards. We look forward to the opportunity to collaborate with you.
