 Cosmetic Appearance Nurses Network

 [See on ServiceFinder.co.nz](#)

Founded in 2016 by leading cosmetic Appearance nurses and trainers in NZ, CANN has grown from strength to strength. CANN nurses are professionally qualified and trained and follow CANN's "best practice standards" developed by nurses and nurse educators with many years of experience in the cosmetic appearance industry. Our network of cosmetic nursing professionals allows us to share the latest knowledge, training, and techniques to ensure the highest level of patient care and safety. CANN is the only official network in NZ for cosmetic appearance nurses. When you choose a CANN nurse you know you are getting a professional competent practitioner with up-to-date knowledge and skills in cosmetic appearance treatments. To check if your nurse is a member of CANN, head to our nurse directory.
