MZ Group, founded by Martin Mao and Lucia Zhang, delivers expert structural engineering solutions throughout New Zealand. Their team of chartered professional engineers and project managers specializes in residential, commercial, and industrial projects. With a strong focus on collaboration and innovative design, MZ Group tailors solutions to each project's unique requirements, offering services such as seismic assessments, structural design, and construction monitoring. They pride themselves on balancing quality, time, and budget to achieve optimal results for their clients. Whether it's a custom residential home or a large-scale development, MZ Group ensures structurally sound, cost-effective, and creative engineering solutions. Their structural engineer team also provides retrofitting services for existing buildings to meet current building codes and seismic standards.
