

POOL FENCING

Negotiable

 Grand Glass Hardware Ltd

 See on [ServiceFinder.co.nz](https://www.servicefinder.co.nz)

In this type of pool fence system, glass panels are supported by our T6 Grade aluminium channels. Channels can be fixed to timber/concrete ground from side or top. For top mounting channels, glass panels will be 1200mm high with 1220mm finished pool fence height. You can buy the channels and glass panels directly from our online shop. For side mounting channels, glass panels will be 1200mm high, and the finished height must be at least 1.2m from the outside ground of the barrier. <https://grandglass.co.nz/pool-fencing/>
