Redline Electrical & Security are registered electricians operating in the Auckland and Pukekohe areas. We have extensive experience in both the electrical and security industries, plus we offer exceptional standards of workmanship and customer service. Our prices are affordable too, so contact us today. We at Redline Electrical & Security specialise in top of the line alarm and monitoring systems, for both residential and commercial settings. Whether you're taking care of business or in your home with your family, we know the importance of providing the best protection possible for the things that really matter. A Redline monitored security system can give you the peace of mind you need to feel safe and secure. The ability to check the status of your home or office at anytime, anywhere you are is priceless. With our system you can ensure your loved ones are safe, in real-time 24 hours a day, 7 days a week, no matter where you are in the world; placing control of your safety back in your hands. Our hardwired and wireless options make it possible for you to enjoy knowing that your priorities are kept safe. In our country the idea of a security system is a relatively new tool that was previously reserved for the well off. But with the rising accessibility of affordable technology and the increasing crime rate in New Zealand, it has become possible and necessary to ensure you protect yourself against the people that wish harm to you. A security system is a procedure we can help you put in place that's designed to prevent intruders, alert you in times of emergency and ultimately keep you safe.
