

Retractable Shade Roof

Negotiable

 Concept Blinds Shutters

See on [ServiceFinder.co.nz](https://www.servicefinder.co.nz)

Our retractable shade roof solution takes pergolas to a whole new level. Instead of the roof being fixed in place, you can choose to have it extended or closed. You can even connect the system to your home automation system, or have it operated by sensors that detect rain or levels of sunlight. We have a range of fabric style and colour options, plus the design and installation of your retractable shade roof will ensure the fabric remains tight and secure at all times. We also offer a PVC fabric that reduces light and is waterproof as well as being resistant to mould and mildew. <https://www.conceptblindsandshutters.co.nz/outdoor-products/retractable-shade-roof/>
