Steel Pipes and Tubes manufacture and supplies high stainless quality of austenitic stainless steel seamless tubes with variety sizes and grades in India. We offer steel seamless pipes and tubes in compliance with ASTM A312/A312M, ASTM A213/A213M, ASTM A269/A269M and various other manufacturing specifications for a wide range of applications. The most common grades of stainless steel pipes we stock include AISI 304, AISI 304L, AISI 316L, AISI 317L, AISI 321, AISI 347H, and AISI 310S. With over 500 tons in stock for stainless steel pipes and tubes, we can offer our customers with Just in time (JIT) deliveries and lowest prices in the industry. Austenitic stainless steel sustains its mechanical values also at higher temperatures. Austenitic, or non-magnetic, stainless steels are the most popular grade produced due to their superior formability and corrosion resistance. The name comes from their stable metallurgical structure at room temperature, which is a single phase of austenitic Low carbon content offers excellent resistance to intergranular corrosion even after welding.
