Steel Pipes and Tubes is one of the biggest manufacturers and producers for stainless steel round bars in 200, 300 and 400 series. We can supply various sizes of stainless steel round bars at the most competitive prices in the industry. Stainless steel round bars supplied by Steel Pipes and Tubes, are widely used in many industries. Finishes on stainless steel round bars can vary and include cold drawn, centres ground, smooth turned, rough turned, turned ground and polished, and HRAP. Due to its anti-corrosive properties, stainless steel round bars have become essential in the manufacturing of parts for the medical, tooling, mechanical, and engineering and food industries.
