At Vienna Woods, we specialise in providing New Zealand with the finest European-engineered timber flooring, combining unmatched craftsmanship with sustainable practices. Vienna Woods is on a quest to source a higher quality of natural wood flooring and interior cladding products to the New Zealand market. Over time we've curated an exciting and inspiring range, sourced predominantly from Europe's leading manufacturers. To us, quality is about more than aesthetics. It's about innovative design, well-sourced timber, craftsmanship and uncompromising attention to detail. Our extensive range includes premium engineered oak flooring, herringbone and chevron patterns, and reclaimed timber, offering unique solutions for any design aesthetic. We believe that your timber floor can remain for the life of your home or building. With this in mind, we developed an approach; To walk with our customers long after their floor is installed.
